1	1	Introduction to Communication: Foundations and Principles	This assessment will evaluate your understanding of the fundamental concepts and principles of communication. You will be required to demonstrate your knowledge through a combination of written responses and practical application. Please note: This assessment is designed to be completed individually. Collaboration with other students is not permitted.	This assessment will cover the following key topics: The Communication Process: Understanding the different elements involved in communication, including sender, receiver, message, channel, noise, and feedback. Communication Models: Analyzing various models of communication, such as the linear, transactional, and interactive models. Types of Communication: Exploring different types of communication, including verbal, nonverbal, interpersonal, intrapersonal, and mass communication. Communication Ethics: Examining ethical considerations in communication, including honesty, respect, and responsibility. Communication Skills: Developing essential communication skills, such as active listening, clear articulation, and effective feedback.	2024-09-30	2024-09-24 09:36:11	2024-09-24 09:36:11
